

## STAT 32950-24620 Midterm, Thursday, April 20, in class

### Guideline

- The midterm exam will be in-class, closed-book.
- One page of formula sheet prepared by yourself is allowed.  
The sheet can be two-sided, up to standard letter size of 8.5" by 11".
- Your formula sheet should not include examples, preferably handwritten.
- Bring a calculator for simple arithmetic calculations ( $\pm$ ,  $\times$ ,  $\sqrt{\phantom{x}}$ ,  $\log$ ,  $\exp$ ).
- The exam covers topics in the lectures, notes, and assignments 1-4 in the first four and half weeks.
- The level and style of the questions in the exam will be similar to the homework questions.
- There will be no R programming in the midterm.
- You may be asked to answer questions based on partial R output provided on the exam.
